

13th Polish–German Traders and Recyclers IGMNiR-VDM Meeting 9-11.10. 2017 KRAKOW_Krakau

INVITATION

Dear Partners, Traders and Recyclers,

The Economic Chamber of Non-Ferrous Metals and Recycling - IGMNiR, in cooperation with the VDM, has a great pleasure to invite everyone interested in non-ferrous metals recycling at the annual 13th Polish-German Partners, Traders and Recyclers, for the Business Meeting on 9-11 October 2017 in Krakow - one of most beautiful Polish Cities. Besides main B2B goals, the parallel theme of the Meeting will focus on "**Krakow as a Gate to Improving International Scrap and Recycling Markets**". Some of us has still in memory our last successful common Gdansk/Danzig Meeting in 2015 year with 208 participants, over 80 only from Germany! Unexpected we had even a dozen Guests from a few other countries.

During last months when our Members from IGMNiR and I told with some of you in Aachen, Leipzig or Berlin on VDM Meetings, we had opportunity to hear how many of you are willing to join to the Meeting in Krakow. We will able to host till 100 people from Germany and some of other countries, too!

So, you can join for our Business Meeting to build or improve mutual partnerships with Members of IGMNiR and other Partners. We hope to host till 200 participants during the Meetings in Krakow and in a few other Study Visit locations. We warmly invite you to participate in the Partnership Meeting and the planned study visits and tourist attractions of Krakow City - former Polish Capital and Wieliczka Salt Mine - UNESCO Culture Heritage, too.

Herzlich willkommen!

Boguslaw Ochab
Council Chairman

Kazimierz Poznański
President & CEO
